Glencoe-Silver Lake Vision

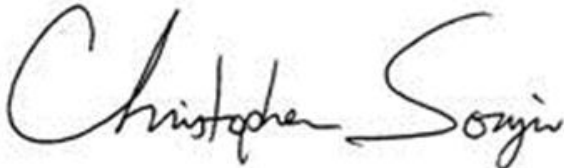

“To Connect To Lead To Inspire”

Dear Community, Staff, Students and Parents:

We are pleased to present the strategic plan for ISD #2859. All of us at the Glencoe-Silver Lake Public School system are committed to providing the best quality education possible to all our students. Our commitment to excellence is a never-ending cycle of improvements. We have seen a number of these improvements over the past several years and will continue this commitment to all stakeholders in our district, to which our children are the most important. Several of our goals are a continuation of our goals from years past. It is our hope that our education models and instruction continue to improve while using new methods and ideas for instruction. Taking best practice concepts will only benefit students.

While we continue to plan and work today, we must recognize to keep an eye on the future. Our students need to have the necessary skills to give them the competitive advantage in our ever-changing world. Our strategic plan will be our groundwork in preparing our students for the ever-changing world. This document will continually be changed and improved to provide a student-centered school for all students. Each year we need to review our goals and collect data to ensure that we are providing our students with a high quality, excellent education. We realize that there will be challenges ahead, but our commitment to our students should and will always be our top priority. We look forward to the years ahead as GSL continues to provide our students with the education and skills to be productive citizens in the 21st century.

Sincerely,
